7[^] Transnational meeting Progetto Blue Template
Cod. 2017-1-IT02-KA201-036870

Due to the health emergency related to the COVID-19 pandemic, the 7th transnational meeting that was scheduled to take place in Toulon (France) on 12 June 2020 was held remotely in Webinar mode. The following partners participated:

DLTM: Dr. Anna Mori (Manager), Chiara Lazzoni (Administrative), Erika Schierano (Teacher)

ECOPLANET srl: Emilio Candiloro (Manager), Gabriella Perrera (Teacher)

Circle srl: Beatrice D'Auria (Teacher)

Lycée Rouvière: Christian Gueguen (Manager), Michel Aimar (Teacher)

Institut de Nautica de Barcelona: Feliu Lopez Vidal (Manager), Marc Munoz (Technician)

Universidad de Cartagena: Francisco Lopez (Teacher).

The following topics already included in the programme were discussed during the meeting:

INNOVATION DAY: The Innovation Day will be held in WEBINAR mode on Friday 17 July from 10.00 to 13.00. Each partner will involve a speaker and the central theme will be innovation and related activities carried out within the project. Speakers will be involved in the same way as the lectures and transnational exchanges, i.e. we will try to host speakers from companies as well as from the institutes themselves. Each partner will prepare a mailing list with the recipients to whom the invitation should be sent. DLTM will collect all addresses and create the WEBEX MEETING room for the meeting, as well as an EVENTBRITE page for bookings. In addition, the programme will be prepared and sent together with the invitation email.

Output to be produced (related to ROV construction activity) already requested during the previous meeting, for those who have not yet completed it

Output 1: Training projects, verification of documents produced

Output 2: Competence evaluation forms before the beginning of the training activities (Professors) + Competence evaluation forms after the training activities (Professors) + Students' self-assessment forms before the training activities, verification of the documents produced

Output 3: Students' evaluation of the experience (ROV building), verification of documents produced

Any other eventualities to take stock before the end of the project.
